Re: Reply Comments related to DA 12-1863, IB Docket No. 12-340, RM-11683

Dear Secretary Dortch:

Thank you for the opportunity to submit comments on behalf of LightSquared and its ongoing efforts to build out a new, competitive mobile broadband network. I have recently been made aware of the company's activities and I want to add my voice and encourage the Commission to grant the license modification application LightSquared has submitted.

As a small business owner, I understand that LightSquared's new network could provide more choices, lower prices and greater coverage for Missourians all over the state. In addition, if LightSquared is unable to deploy its network, major economic and consumer benefits will be lost. LightSquared's proposed wireless broadband network will produce an estimated \$12 billion in value to the economy and potentially 10 times that amount—\$120 billion—in benefits to consumers.

I want to urge the Commission to approve LightSquared's license modification, which will enable the company to launch its network and provide greater choices for small business owners and consumers.

Thank you for considering my comments and for your service.

Sincerely,

Donna English  
President & CEO  
Capitol Consulting
